

DFP / CME: credits:

The meeting has been accredited by the Austrian Medical Association with a total of **18 DFP points** (Pharmacology and Toxicology) (event ID: 650312).

Medical doctors (members of the Austrian Medical Association) who want to collect these points are asked to sign the daily DFP activity attendance list and supply your ÖÄK ID number; the DFP points (number based on your attendance) will be entered into your DFP accounts by the APHAR office after the meeting.

Medical doctors who are not members of the Austrian Medical Association but still require a DFP/CME confirmation are asked to sign the same list and provide their e-mail address so that the APHAR office can send a confirmation about the appropriate amount of DFP/CME activity to you after the meeting.
