

CALL FOR GRANT APPLICATIONS

The *Medical Neuroscience Cluster intramural research grants* will support projects in any field of neuroscience, engaging collaborations between preclinical and clinical researchers of the Medical University of Vienna.

Grant applications are envisioned to provide seed financing (max. € 15.000.-) for two explorative research projects leading to application for continuing support through external funding sources (eg FWF or similar).

Requirements:

- two or more Principle Investigators of the Medical Neuroscience Cluster, including at least one preclinical and one clinical department
- submission of a short grant proposal (see below) **until 31/7/2023, 2 pm.** in a single pdf file to neuroscience@meduniwien.ac.at

Application guidelines:

- free-form project description (max 3 pages), including information on: research topic and scientific goals, methodology, expected result, third party funding perspectives, research team; a maximum of 15 references may be included on a separate page.
- Short CVs (max 2 pages) of each PI
